

Alex Dunham.

Front End Developer

Personal Statement.

I am an enthusiastic, hyper-efficient front end developer, with a passion for making beautiful things. I learn quickly, adapt easily, and always commit my best work to a project.

Experience.

Front End Web Developer | November 2016 - current

Joy Business Academy, Auckland, New Zealand

In-house front end development for Joy Business Academy's online learning platform and marketing site. Involved working with the design and development teams to create bespoke features for corporate 'white-label' clients, develop new features such as instant messenger and an interactive profile, and over 30 interactive courses. Used technologies such as Vue.js, Laravel, HTML5, Sass, and Jquery.

Highlights:

- Launch of over 30 bespoke courses
- Re-skinning and customising for several major 'white-label' clients for use both nationally and internationally
- Created and launched new instant messenger feature within platform
- NZ-wide launch for JBA and Youthfull 2017
- International launch in Pakistan and Hong Kong 2017

Junior Front End Web Developer | February 2016 - November 2016

Client-facing front end development role, within NZME's Digital Services team. Involved creating bespoke websites for clients from PSD mockups, using Wordpress, Silverstripe, and Shopify CMS, as well as static HTML5 and CSS3. Also involved creating national campaign microsites for clients with The New Zealand Herald, using EngageSciences software.

Highlights:

- PANPA Best Digital Idea or Innovation 2016
- PANPA Highly Commended - Best Microsite/Native 2016
- PANPA Highly commended - Best Digital Campaign for client (National) 2016
- NZ Herald x Heart of the City Lovebites Campaign (nationwide)
- NZ Herald x ASB Farmsmarts Campain (nationwide)
Radio Hauraki x ACC & Canadian Club fantasy cricket competition (nationwide)
